Stream of Consciousness

What does it feel like when you're in the flow? Receive writing prompts and practice the ancient art of stream of consciousness writing which means letting all your thoughts spill onto the page. We'll then play with the magic you create.

Dear Diary

Journal writing can be a powerful tool to use throughout your life. When things get challenging or stressful you can use journal writing to work through them, understand your true feelings, and help you decide what to do next. Create or build on your own journal writing practice at home and get writing prompts to help ignite the journey.

Register now or drop-in every 6 weeks for new craft topics!
